The only one build for Animals

Real Time Keyer / Previsualization

We are film maker and professional animal trainer for wild animal actors in Germany

The Green Screen Animal Filmstudio can be rented (fully illuminated) individually by any customer,... or we produce your customized Green Screen Footage of many different animals like Wolves, and other exotic animals in a resolution up to 8K.

You can send us your backgroundplates or film and we customized the lighting, camera angel, etc. while shooting. We previsualize/precompose the scenes in realtime with our Keying/Composing System and send the preview files while shooting to your Producer/vfx specialist

so you can immediately decide whether the material is suitable or not.

Media files will be delivered as 16 Bit Raw files up to 8K (Red Files).

Post-production can take place in-house on high-performance computers with 5K Displays. Our own audio recording studio is also part of our Portfolio.

Hardware list in our Filmstudio (in stock 2025)

Place No. 1 ...for real time keying with animals.

Wild Animal Actors

Infrastructure / Animal welfare / Sustainability

The Filmstudio is part of the company Wild Animal Actors. The Studio is very close, nearby to all the exotic wild animal actors, so there are many exotic animals, enclosures, animal-trucks on 2,5 hectares. All our animal are trained in our Filmstudio and prepared for their roles.

That means: ..short ways, no or less transportation of animals, less stress for the animals, trained animals for the Filmstudio, less CO2 footprint!

Animals can easy get used to and are pretrained for the shooting
We use only Green Electricity in our Green Screen Filmstudio.

All animal have the right vaccines and documents in accordance to the german law TierSh § 11 for displaying them in movies, etc.. These are the animals of Katja & Miguel
